

DS-75i

Folder Inserter

Productive, Versatile and Intuitive

Productive, Versatile and Intuitive

Combined with our mail management software, the DS-75i is the perfect mail assembly solution.

The DS-75i combines unparalleled ease of use with advanced technology. With its compact footprint, large loading and unloading capabilities, and features such as CIS scanning technology, the DS-75i can process a wide variety of mailpieces for invoicing, monthly statements, direct marketing campaigns and many other applications.

Getting your mail folded and inserted has never been so simple. The intuitive color touch screen of the DS-75i prompts the operator through each step of the process. This scalable system is extraordinarily quiet and designed to fit perfectly into any work environment. With its wireless and LAN embedded capabilities, it can be connected to your network to enable remote diagnostics and remote assistance to provide help when needed.

Visibility and Integrity

The optional AIMS-500 software extends DS-75i's built-in document security to deliver complete end-to-end process verification. Its verification capability confirms every piece of mail in your job has been processed accurately, providing complete closed loop, piece-level integrity.

Automated Document Preparation

Quadient's optional Output Management Software (OMS) can add significant value by enhancing the formatting, personalization, grouping, printing, barcoding, and addressing of your documents.

OMS and AIMS, along with the folder inserter operating system, work seamlessly together to meet all your business' critical communications requirements.

The DS-75i Offers Flexibility of Configurations

Increase Productivity

- High-capacity feeder
- MaxiFeeder tray
- High-capacity vertical stacker

Process Invoices and Statements

- 2 standard feeders
- 1 MaxiFeeder tray
- High-capacity vertical stacker

Enhance Customer Communications

- 3 standard feeders
- Side exit tray

Business Impact

Revenue Growth

Accelerates document delivery time allowing for quicker customer response and improved cash flow.

Customer Engagement

Increases customer satisfaction by sending documents via the customer's preferred delivery channel, while providing the ability to easily interact, store and retrieve documents.

Risk Mitigation

Ensures sensitive information is not compromised by providing document traceability and a secure portal powered by Microsoft Azure.

Expense Control

Reduces postage, preparation, equipment and material costs by allowing migration from traditional mail to digital delivery.

2. Touch Screen Display

The 7" color touch screen enables navigation easily to create a new job or access existing jobs within seconds

1. Automated Stacker

The high-capacity vertical stacker holds up to 500 finished envelopes

3. CIS Scanner

Internal Contact Image Sensor (CIS) scanner can read OMR, OCR, ID and 2D codes printed horizontally or vertically on the document

4. Document Feeders

Process multiple page sets at high processing speeds using three standard feeders holding up to 975 documents (3 x 325). While in cascade mode, feeder sensors ensure continuous operation

A State-of-the-Art Graphical User Interface

Designed for all users, the intuitive, full color, high-resolution 7" touch screen provides a wizard-based, user-friendly interface, making it easy for anyone to select and run their folding and inserting jobs.

And, see how easy it is to create a new job. Simply load your documents and envelopes and press the start button. The DS-75i will automatically measure the length of all loaded documents, as well as the envelope, in order to adjust all settings and process the appropriate mail items.

Smart Solutions to Maximize Flexibility

The exclusive FlexFeed® tray enables you to process many different document sizes. In combination with the unique semi-automatic envelope separation mechanism, this provides full flexibility for feeding a wide variety of document types.

Optimize Productivity with the MaxiFeeder Tray

Choose to load the MaxiFeeder with up to 325 BREs or load up to 1,200 sheets to maximize your productivity.
