

quadiant®  
Bulk Mailer®

# Mass mailing, made simple.

Simplify your mailings, increase deliverability, navigate complex postal regulations and achieve the lowest postage rates with Quadiant® Bulk Mailer®. Our best-in-class solution makes navigating the complex world of mass mailing simple.

## Never worry about your USPS® documentation

Generate all required documentation including the Qualification report, USPS® Form 3553, postage statements, barcoded sack and tray labels. Additionally, Bulk Mailer supports seamless submission of electronic documentation through Mail.XML™.

# 100%

of surveyed organizations realized a return on investment in less than a year with Quadiant Bulk Mailer

“I have tried multiple platforms for bulk mailing and Quadiant Bulk Mailer is the easiest, most user-friendly platform of them all.”

—Robin Czuczor, Marketing Director, Classic Printery

### Experience

Over 6,000 customers worldwide

### Backed by the experts

Ranked a Leader by Gartner & Forrester

### Future-proof technology

Fastest release rates in the industry

### Proven results

95% customer satisfaction rate

## CASS and PAVE Certified™

Standardize abbreviations and address formats to USPS® guidelines, correct the spelling of streets and cities and verify deliverability, including DPV®, LACSLink® and SuiteLink® processing. Add missing postal data including nine-digit ZIP Code™, eLOT® and carrier route numbers, delivery points and more.

Sort address lists for the lowest possible postal rates and generate all required USPS® documentation, reports and postage statements. The Mail Sort wizard includes support for First-Class Mail®, Standard Mail® and Periodicals.

### Mail Sort Wizard features include:

- First-Class Mail, Standard Mail and Periodicals presorts
- SCF, NDC, ADC and DDU entry point discounts
- Management of multiple mailing permits
- All required USPS documentation
- Advanced settings for minimum or maximum pieces per container, type of tray and maximum sack weight
- Supports Intelligent Mail barcodes for mail pieces, sack and tray tags
- Append a presort ID and other mailing data for use in other environments
- Presort add-ons include Package Services, Palletization, Firm Bundles and more

## Real-time Move Update service

Use our built-in Move Update service to process lists against the full 48-month NCOALink® data set in real-time. Bulk Mailer updates address lists before the mail is printed and sent, and NCOALink® processing meets USPS® Move Update requirements for First-Class Mail® and Standard Mail® discounts.

## EasyTrack Mail Delivery Tracking Service

Don't mail blindly. Enjoy a multi-channel experience with full visibility into your mailings within the USPS® mail stream and compile your data into easy-to-read, comprehensive reports with EasyTrack.

### Improve service and data-driven decisions

Coordinate mailings with more accurate delivery dates, provide proof of mailing services, and easily share reports for better customer service. Make decisions and trigger subsequent events based on where the mail piece is, for example, alert your customers with an email or mobile push notification that an important communication is in their mailbox. Their mail moment will be enhanced, which will help increase your customer conversion rate.

### Increase insight

Monitor mail delivery windows and generate comprehensive reports that leverage USPS Informed Visibility® which enables you to benefit from near real-time scan data. Drill down into maps and get powerful piece-level analysis.

### Be proactive and grow your business

Ensure vendors are performing as contracted, and resolve delivery problems before they become customer problems. Customize the EasyTrack user interface with your company's branding to deliver a new value added service to your customers.

## Every Door Direct Mail® service

Automatically generate EDDM® lists, all required documentation, and facing slips in two sizes. Easily select routes, ZIP Code™, residential and/or business addresses, and get access to up-to-date delivery counts.

## List cleansing

Our Duplication Search tool offers multiple search options and field combinations for precise results. Our Merge/Purge feature combines, compares and eliminates duplicates from disparate list types. Additionally, lists are processed against suppression lists ensuring you meet do-not-mail requirements.

## Custom address printer support

Take full advantage of your address printer — Bulk Mailer provides support for model specific features. Address-printing features include Intelligent Mail® barcoding, an optional endorsement line, fonts, images, grids, package spacers and more.

### Import and export files

- Supported file formats include comma or tab delimited, fixed length, dBase, XML, Microsoft Access and Excel
- Intelligent field mapping actively suggests matches
- Increase productivity – save settings for similar data files

### View and edit records

**List views** present addresses in a spreadsheet for quick review. Update, split or combine fields in all active records.

**Detail views** offer organized access to data fields in address-card format. Easily add, validate and update individual records.

### Groups

Easily limit a mailing to a subset of your list. Define criteria and sort options for a more targeted mailing.

- Any field(s) may be used to define a group
- Conditions include custom, predefined and data sampling
- Use pre-set groups to minimize returned mail.

## High-performance, multi-user architecture

Built for the highest-volume mailers, Bulk Mailer Business offers advanced performance capabilities with large address files, and supports team-based processes.

- Integrate Microsoft SQL Server databases
- Support multi-user template and mailing sharing
- Package mailings with reports for backup or transfer
- Archive older mailings
- Manage permits and other information for your Clients

## Expand as you grow

Expand Bulk Mailer as your business grows by simply selecting and installing new features through the Add-On manager. Quadient Bulk Mailer provides capabilities to support mixed weights, palletization, firm bundles, merge/purge, and other critical capabilities you'll need as your business continues to grow. Additional data enhancement options and advanced presorts expand Bulk Mailer to meet the most demanding mailing requirements.

## Data enrichment

Access Data Services directly through the Bulk Mailer interface to achieve:

### Improved delivery rates and increased visibility

- Address Validation
- Apartment Append
- Move Update
- ECOA
- Walk Sequence
- Reverse Phone Append
- Easy Track

### Improved email communications

- Email Validation
- Email Append

### Reach customers by phone or SMS

- Phone Validation
- Phone Append
- Phone Information

### High-precision targeting

- Head of Household
- Centroid Geocoding
- Address-Level Geocoding
- Suppression Suite (Deceased, Incarcerated, Do Not Mail)
- Do Not Call
- Do Not Email

# Bulk Mailer Package Options

“Bulk Mailer Business does everything we need it to do for processing business mail. The technical support is superb and the cost is reasonable.”

—Larry Naselli, Marketing Professional, Allegra Marketing
